

Mission

To reduce suicide and its impact on individuals, families, and community

Vision

A community where everyone is engaged in suicide prevention, intervention, and postvention

Priority Descriptions

Building Sense of Community

We create opportunities for sense of community and connectedness, while also building awareness of mental health, well being and suicide to reduce stigma

Education and Training

We use current best practices to equip people with knowledge and tools to be meaningfully engaged in suicide prevention, intervention, and postvention

Organizational Capacity and Excellence

We hold ourselves to a standard of excellence by ensuring our work is sustainable, effective, and impactful
